

ULTRA-PU® is the newest alternative film laminated fabric based on Ultra thin layer film and process of Polyurethane lamination. The combination of thin layer film (5µm) and PU lamination can intimately express the look and feeling of luxury luster as well as offer good color fastness, resistance to abrasion and durability. We proudly offer this diversity in application and manufacturing thanks to very stable, even quality and advice simple care such as washing with water, normal dry cleaning and wiping during your use.

Cross sectio of ULTRA-PU®

Characteristic

SUPER SOFT HAND-FEEL COMBINATED WITH THIN-LAYER FILM
